

Dear Judge Warren,

For 30 years I enjoyed health care benefits from my company, Delphi. The benefits in my working years and those to come after retirement were a strong reason for staying with the company. I always fulfilled my part of the contract. Now I and other white collar retirees are about to be placed in extremely unfair circumstances).

Please consider our situation when you rule on Document #14705 dated 2-4-09. Please consider rejecting this notion.

Thank you,

Paul Maurice
